STATEMENTS IN STEEL

It is time for a change.

It's time to match our appearance
with the strength of both our
reputation and our products.

And seal every statement we make
with the assurance of quality.

WESTMAN STEEL is one of Western Canada's largest manufacturers of premium steel products. For more than three decades, we've pursued innovative steel solutions – from roof tops to walls, doors, and most products in between. Our ground-breaking solutions and paint applications make significantly better buildings – true *Statements in Steel* – for agricultural, commercial, and residential applications.

We're also making true statements to our dealers by reinforcing our dedication to them in providing superior steel products. This is evident in every product we manufacture and distribute.

We stand behind our words. Our products carry the CSSBI Quality Product symbol which identifies them as exceeding industry standards.

That's just the beginning. Like the products we make, WESTMAN STEEL is advancing every day.

Through continued innovation, improved product quality, and effective support material, WESTMAN STEEL is building a solid foundation for helping our customers make their own unique *Statements in Steel*.
